MILWAUKEE® SAFETY GLASSES RANGE

REMOVABLE GASKET
 PROTECTS AGAINST DEBRIS

ANTI-SCRATCH LENSES

PREMIUM SAFETY GLASSES WITH GASKET

The gasket places the glasses closer to the skin and avoids any dust or debris entering into the eye. This is the perfect replacement for safety goggles, as the glasses offer the same dust protection, without the discomfort.

The tinted premium safety glasses benefit from polarised lenses to protect from glare, and offer best-in-class UV protection.

PERFORMANCE SAFETY GLASSES

Performance Safety Glasses also benefit from Milwaukee Tool's anti-scratch lenses, allowing for easy, care-free cleaning. The anti-fog coating on the lens makes the glasses compatible for use with a respirator and perfect for all-day wear, inside and out.

LONG LASTING ANTI-FOG

ALL DAY COMFORT

SAFETY GLASSES

Safety Glasses are the lightest within the range and are ideal for a long-time everyday wear. The possibility to remove the nose bridge makes them perfect to fit over respirators.
